

School Goes On As Bombs Drop

Many Children Are Barefoot, Underfed, but Reading, Writin' Continue.

NEW YORK—They're back at their tattered books in this third school year of Great War II: Ian and Mary of England, Karl and Gretchen of Germany, Jean and Marie of France and Luigi and Angelina of Italy, in the strange school rooms fashioned by Nazis.

That is, they're at school if there is any school, as almost always there is, and if there are any shoes to wear, which sometimes they have.

In England, 4,500,000 boys and girls, gas masks slung over shoulders, trudge daily to classes; in many cases in "safe" areas far from home; in at least one case, in the path of the shells that Germany's Big Bertha fire across those fearful 20-mile miles of English Channel.

In France, refugees choose the schools, yet numbers of children learn their lessons at home, by radio, because their shoes are worn out. In Italy, there are new school buildings, now that there are more British air raids. In Germany, the "lehrer," with close-cropped hair and ruler, daily doses out vitamin pills to his smallest students.

Jews Are Barred.
The children of neutral Switzerland have air-raid drills between classes. The schools of the Nazi-overrun Balkans have fewer than teach this year, for in increasing measure new laws have barred the Jews and their children.

But almost everywhere else, enrollments are close to normal. The children of Hell's Corner, England, which rightly is known as Dover, went back to their regular buildings this month for the first time since Dunkerque.

Since September, 1933, the movement of hundreds of thousands of children from British cities to countryside and back again has provided a mass phenomenon without parallel in history. The children of the south and east coasts were trundled inland.

In the ensuing months bombs and shells destroyed hundreds of school buildings (London alone lost 600, or two-thirds of the capital's total); but the children were not sent to "safety" on the south and east coasts were trundled inland.

In the ensuing months bombs and shells destroyed hundreds of school buildings (London alone lost 600, or two-thirds of the capital's total); but the children were not sent to "safety" on the south and east coasts were trundled inland.

FARM TOPICS

SPEED REPAIRS OF MACHINERY

Quick Action Will Protect Farmer Against Shortages.

By C. B. RICHIE
(Agricultural Engineer, Ohio State University)

Farmers who immediately take measures to protect themselves against any possible shortages in machinery or repair parts will save themselves and their neighbors money and trouble.

The first step in this prophetic campaign is the inspection of all machinery and equipment to find out just how much of it is in good condition and how much of it is in need of repair.

Some farm machinery will be so old that it is better to replace it than to try to repair it. The second step in getting the machines ready for 1942 is to order needed parts immediately. This should be done whether or not the parts are in stock.

Back logs of orders for parts in the manufacturers' files are powerful arguments in getting supplies of materials for filling the orders.

While the machines are being inspected, all loose nuts and other minor lacks of adjustment should be corrected. Excessive vibration of machinery in operation decreases its efficiency and increases chances of breakage.

Lock washers help keep nuts from working loose. The farmer's demand for food for his army forces is the most important reason for getting the machines ready for 1942.

Good farm pastures will become as vital as munitions factories in Uncle Sam's war program as the demand for more meat and dairy products increases in months to come.

The farmer's demand for food for his army forces is the most important reason for getting the machines ready for 1942.

Lesson subjects and Scripture texts for Sunday School Lesson

Lesson for January 11

Lesson Text—Luke 1:25-28, 30, 40. GOLDEN TEXT—Jesus increased in wisdom and stature, and in favor with God and man—Luke 2:52.

"Nobody knows what a boy is worth, until he has been in a hard place." For every man in an honest place is a boy that must be tested.

Jesus was "only a boy" as He grew through infancy and childhood, and in that baby and that boy rest the hope of the world.

Miss Cleo Reynolds visited relatives at Lynchburg during the holidays.

When the Christmas holidays at home, Kennon Kinney returned recently to Newport News.

Robert Kinney left Saturday for Boston, Mass., where he will continue a course of study.
